Caterina Baldi Tre gatte nel bidet (Three Cats in the Bidet)

The first title of the new book series
«Flush. Stories of people and animals».

Three stray little cats have to share the same home. Fiamma, the first to arrive, is a hurricane and destroys everything she encounters. Bigia, the second one, is fickle and insatiable. Nera, the third one, is silent and idly. There is only one thing that makes them calm: the bidet. Step by step – or paw by paw – each of them finds it as a place of serenity and relax. At the beginning, the three cats look one another with hostility and caution, but the same passion for the bidet binds them in a special friendship. It is a story about transition from mistrust to friendship and the illustrations of Caterina seem to capture the cats' movements and their thousands of catlike troubles.

Casa mia un tempo era silenziosa.
Ordinatissima.
Tanto pulita e ordinata che anche
le mosche la trovavano noiosa.

Poi sono arrivate loro.
